

*Mini*  *Bowling*®

**MiniBowling Imply® is an attraction created for family entertainment, designed to grow the operators profitability and improve customer experiences.**

**The compact lanes with smaller balls and pins, make the game easier and fun for all ages. The fun-sized length starts at just 11 meters (37ft), with the perfect size to fit in compact places.**

# Mini Bowling®

Bowling has always been a classic attraction: impossible not to look, irresistible not to play. Now, IMPLY® has reinvented the MiniBowling, with the most enhanced designs ever.

Are you ready for an impressive look? Choose the design of your MiniBowling with the coolest trends:

**Pin Indication Panel** with LEDs, indicate knocked down pins, first ball, second ball, when the machine is rearming and when it's ready to play. When the machine is not in play, animated lights are displayed instead.

**Lighting effects with LEDs** along the lanes

**Color changing RGB effects on the pins**

**Lane with phenolic synthetic laminates** with high durability and resistance, **imply** lanes look like new for many years of use.

**The compact lanes with smaller balls and pins,** make the game easier for kids.  
 Ball: 1.7Kg (3.7 lbs) and 13cm (5.1") diameter.  
 Pin: 1.1 Kg (2.4 lbs) and 23cm (9.1") height.

### Easy to operate:

The MiniBowling requires minimal maintenance. Engineered with the highest quality, for the best durability in high use flows. For more convenience, the front panel opens for maintenance.

## Bright Bowling:

The lanes shine under black lights with  
glow in the dark effects!

32" Overhead LCD's display the score and animations

If you add on our Management Central (optional), you may also use the the displays within the bowling alleys to display custom images, messages or advertising. Excellent add on to publicize events, promotions, special occasions and so much more.

The animations are available in several theme options, for your choice:

BOWLING CLASSIC

SPACE

WATER

JUNGLE ADVENTURE

BULL RUN

PLAYERS RANKING			
MALE	FEMALE		KIDS
1	192	25/10/2013	CAROL
2	181	19/11/2013	ARIANE
3	180	05/12/2013	ARIANE
4	176	19/11/2013	MC
5	170	16/01/2014	CAROL

**Fast software with extremely simple and intuitive interface designed for better player experience.**

**Just insert a credit to start making strikes!**

**Ranking:** At the end of the game, the best scores can record their names in the Top 10, using an exclusive trackball mouse, located on the user control at the beginning of each lane.

**Can be operated with tokens, coins, smartcard, or central management.**  
(coin/token/smartcard mechanism not included)

**Optional Redemption Tickets:**  
You can set the value for the tickets.

**Up to 6 players can have fun in the same game.**

**Gameplay programmable by the operator:**

With 10 frames, and two shots per frame, like official bowling.  
Or 'FAST' mode with only one shot per frame for a faster game.  
The software includes an exclusive timer (regressive time counter) to avoid slow play.

|  Black           |  White |
|  Black and White |  Wood  |

# Optionals

## SIDE PROTECTION

For greater safety, we offer a polycarbonate side protection option for your Mini Bowling. With clean design, the transparent protection not only complements the look of your MiniBowling, but also can be used as advertising space with promotion stickers.

## OPERATIONS AND MANAGEMENT CENTRAL

Everything can be controlled by our Management Central powered by the Antares software, which offers a user friendly graphic interface. The Management Central can offer daily reports for all your lanes as well as income generated per lane. Other functions such as managing other equipment, collecting customer information, and managing digital displays are very easy with our system.

- Register customers with their data and preferences (address for mailing lists, birthday, shoe size, fidelity number, and more).
- Control the collection method (prepaid or postpaid), per hour or per game. Set different prices for specific days and times, holidays, special prices for holidays, tournaments, birthdays, happy hours, special promotions, among others. Control discounts and additions (it is required to enter a reason for record). Allows to split a payment between several people.
- Control opening and closing lanes, and game settings.
- Prints reports of each game, with the scores of players.
- Reserve lanes and call reservations.
- Configure and customize the languages, score ranking, messages, images and animations displayed on the LCDs.
- Financial Synthetic and Analytical Reports, and Maintenance Reports.
- In addition to bowling, can also control other equipment (optional) such as pool tables, and others.

### Includes:

- 1 Computer with LCD screen
- 1 Mouse
- 1 Keyboard
- 1 Network Switch
- Antares Management Software License

# INSTALLATION

The installation period with 2 **imply**® technicians takes about **2 days per lane**, along with **2 assistants** provided by you.

Besides, it is very important that your appointed **bowling technician** is present during the installation to receive training and knowledge transfer from our team about the equipment.

Important: Leveling the floor at the site where the lanes will be installed with maximum acceptable tolerance of 2 cm gap.

We will provide the best solution for your Bowling, creating a custom project especially for you.

Our team will assist you with ideas and suggestions for your project and building, as well as useful guidelines to increase the positive experience of your customers.

- **UL Certification and CE Marking**, following international norms and standards of quality.

- Manufacturer **Warranty and Technical support** from our highly qualified team.

- **International Distributors** network.

- Imply equipments are developed to require **minimum maintenance** and **low operating costs**.

# START YOUR PROJECT NOW AND YOU COULD START SEEING A RETURN ON YOUR INVESTMENT NEXT QUARTER.

## FAST PAYBACK PER LANE POTENTIAL ANNUAL REVENUE:

	20 games per day	30 games per day
Game Price \$3	\$21,900	\$32,850
\$4	\$29,200	\$43,800
\$5	\$36,500	\$54,750
\$6	\$43,800	\$65,700
\$7	\$51,100	\$76,650
\$8	\$58,400	\$87,600
\$9	\$65,700	\$98,550

Simulation for 365 days of operation

## BOWLING IS A PROFITABLE INDUSTRY WITH HIGH RETURNS OF INVESTMENT.

- **Guaranteed attractive impact for a variety of entertainment applications:** Family fun, happy hours, birthdays, parties, events and much more.
- **Fun for all ages!**
- **Proven attraction worldwide:** Bowling will become the main attraction of your business, improving your profitability, traffic flow, and food & beverage sales (if applicable).
- **Bowling is a solid investment:** The operation provides stable revenue levels, with cash flow throughout the year.
- **Combining lots of fun and bowling together to create a cool vibe atmosphere,** MiniBowling has a promising future. It is the ideal business to unite a quick payback with the enthusiasm of promoting fun.
